

I have a complaint, I have been hearing of an organization that is abusing it's power and trying to take away the first amendment. Well the organization is you, the Gestapo of T.V. and radio. Somehow you think you are above the constitution which I believe states: "Congress shall make no law respecting an establishment of

religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to

petition the Government for a redress of grievances. " Oh wait, not only do I believe

it states that, it does, it isn't a myth or a guess, and it states that. You are interfering with the freedom of speech. And I can keep sending this to you everyday according to this right, and I will, till changes are made. But let's forget

the constitution for a minute; God gave us all free will. The FCC is trying to play

god, not letting us choose for ourselves. So not only do you think you are above the constitution of this country, you think you are above God. Just because someone cusses or says something that may offend someone, doesn't mean they should be fined, it is that individuals right. If a person hears it that doesn't like

what they hear can go and listen to something else, or watch something else. You can't control a people and take away our rights. I don't care if I have to e-mail my

senator, representative, and even the President everyday hence forth, cause I will. I

won't be alone, there are others like me and you will be hearing from them, and like your fellow Nazis in Germany, you will fall. You are having an electronic book

burning; I am here with a CO2 fire extinguisher, ready to put the fire out. I know

one person can't make a difference, I don't intend to alone, but the network of people I talk to are sick of your involvement.
